

# VET. HERBAL PRODUCTS

*We have the pleasure to introduce through this booklet Ayurvedic Veterinary medicines formulated by us, which can be practiced in the field.*

*These preparations are formulated on the basic principles of Ayurvedic science. This is greatly to the credit of those people of India who were acquainted with a far larger number of medicinal plants than the natives of any other country on the face of the earth (Indian Medical Plants: Introduction P XXXV First Edition, Nighatu P.4). Therefore, Indian Ayurvedic Science having a lot of potential in the sphere of preventive treatment, should not be neglected, since it has the vital force of balancing the natural resistance power in the body, by correcting the root cause of illness.*

*On this assumption, efforts are being made to use selected herbs, indigenous drugs, salts and minerals in a natural form in balanced proportions in our products, which have received a favorable response everywhere.*

*The most beneficial facts of our products are that they are non-hormonal and very safe to use. They do not create any adverse effects, allergy or any drug resistance, which are supposed to be caused by the use of allopathic medicines. Our products do not create any human hazards that have resulted from the use of animal products, viz. milk and meat from animals treated with allopathic medicines.*

*Therefore, this is the right time to re-establish the basic principles of Ayurvedic treatment by supporting the natural physiological phenomena of the body, supplementing its natural resistance through the use of plants, herbs, indigenous drugs, salts and minerals, which are found in the relevant constitution of the body, given by nature itself.*

*Why should we not take-up this challenge and try these products for the uses those are mentioned, for curing ailments by enhancing the resistance and stamina in support of the natural resistance of the body?*

*Ours is a humble effort, a drop in the ocean and we will be rightly encouraged, provided a warm response is received from the field.*

NO	Product Name	Indication	Pack Size
1	<b>MOREMIK TABLET</b>	MNON HORMONAL, LACTOGENIC, GALACTOGOGUE	1000x1 Pouch
2	<b>MILKFLO BOLUS</b>	A POWERFUL GALACTOGOGUE AND AN EFFECTIVE TRANQUILIZER	200 BOLUS X1
